ProCash 280

Monofunction cash dispenser for indoor installations

The compact cash dispenser

The ProCash 280 is one of the most popular, fast-selling systems in Wincor Nixdorf's ProCash product family. It is the ideal system for usage in extreme conditions, where a robust machine is needed and the focus is on cash transactions. The system comes with flexible configuration options to improve your services at third-party locations. The system's performance and resilience are proven to reduce queues, speed up transaction throughput and boost profits, and as a result provide a fast return on investment.

ATM redefined – creating possibilities

Redefine the consumer experience with the ProCash 280. A highly userfriendly interface means intuitive usability, ensuring an enjoyable consumer experience and operational efficiency.

With its small footprint, it fits into tight spaces, making way for other systems to provide better queue management. Featuring up to four cassettes, the ProCash 280 also guarantees maximum availability thanks to its best-in-class dispensing technology.

Flexible hardware and software architectures are customized to your needs and are open for upgrades and module modifications.

A comprehensive security suite

An anti-manipulation card slot, anti-skimming module, biometric solutions and high resolution cameras – these features address security concerns, enhance consumer confidence and maintain the integrity of your system.

WINCOR NIXDORF

Services

Wincor Nixdorf's fast, professional manufacturer service is available as an option for the ProCash 280 as part of the complete solution offer. Tailored services enable the highest possible system availability and security worldwide due to standardized service processes and efficient remote management based on the Wincor Nixdorf eServices Platform®. By request banks can hand over their complete IT operations and the control of their cash processes to Wincor Nixdorf's service organization.

Consulting and integration

Wincor Nixdorf offers a fast and optimal business implementation – from analysis and concept design through to optimal deployment and integration in individual customer scenarios. In Professional Services from Wincor Nixdorf you find an ideal partner for implementing your retail banking process and IT strategy.
