

# ProCash 8000

## Multifunction automated teller machine for indoor installations

### **The new ProCash 8000 series - ATMs at their best**

The ProCash 8000 series is Wincor Nixdorf's latest addition to its proven and successful portfolio of automated teller machines. Based on best-in-class dispenser technology, it is one of the world's most reliable cash dispensing systems. A broad range of multifunction options and state-of-the-art security features guarantee top flexibility and security. The ATMs come in an ergonomic, timeless design that complies with the requirements of all user groups. The systems in the ProCash 8000 series reflect Wincor Nixdorf's clear commitment to its motto: Outstanding quality, made in Germany – The perfect choice.

### **ProCash 8000 – Multifunctionality on a minimum footprint**

With its new ProCash 8000 system, Wincor Nixdorf offers yet another best-in-class cash dispenser for use in branch and lobby environments. The compact indoor system delivers excellent performance thanks to enhanced multifunction options such as innovative print, passbook, check and coin

processing. 17" monitors, softkey and touch operation, an illuminated card slot, attractive design and customer guidance guarantee maximum satisfaction. Optimal component accessibility and a graphical user interface make ProCash 8000 one of the world's most user-friendly cash dispensing systems. The same applies to serviceability: A broad range of operating information is delivered automatically, enabling proactive and efficient system management.

### **Security across the board**

Criminal attacks often result in more than just damage to systems - they are also likely to concern customers. Protection is provided by the innovative security solutions from the ProTect portfolio. ProCash 8000 offers impressive new security features: An Anti-Manipulation Card Slot, the Anti-Skimming II Module, high-resolution cameras, Optical Security Guard, Anti-Cash-Trapping Sensors, CryptTA Stick and EPP V6 with privacy shield, are all features that close potential security gaps, improve system availability and win customer confidence.

### **CCMS-ready**

Maximum investment protection, excellent process optimization potential, unlimited flexibility and best-in-class innovation are the promises we make to our customers. The ProCash 8000 series is again based on this principle. The new systems make perfect additions to your existing ATM estate, since their core component is the CMD-V4 dispenser, based on the proven cash-out cassette. This means that customers can benefit from all the advantages of the new ATM line without any delay or hassle. In addition to this, Wincor Nixdorf's CCMS-ready concept guarantees that you can implement the Cash Cycle Management™ Solutions at any time in the future. A special upgrade-kit enables the usage of the new CINEO technology in the whole ProCash 8000 series. This technology concept provides many additional opportunities for banks to optimize their processes and cut costs.

NIXDORF**

EXPERIENCE MEETS VISION.

## Services

The ProCash 8000 comes with "Service Included": Wincor Nixdorf provides fast, professional manufacturer service.

Tailored Support Packs enable maximum system availability and security worldwide due to standardized service processes and efficient remote management based on the Wincor Nixdorf eServices Platform®. Banks can thus hand over complete IT operation and control of their cash processes to Wincor Nixdorf's service organization, and benefit by end-to-end services.

## Consulting and integration

Wincor Nixdorf offers a fast and optimal business implementation - from analysis and concept design through to optimal deployment and integration in individual customer scenarios. In Professional Services from Wincor Nixdorf you find an ideal partner for implementing your retail banking process and IT strategy.

## TECHNICAL DATA

### General

#### Installation types

- Indoor, frontload or rearload
- Partly integrated, fully integrated, window frame

#### Chassis

- Multicolor options
- Illuminated advertising lightbox
- Customers guided by optical indicators at all input and output modules
- Rack for handbags (plastics or stainless steel/wood)

### Banknote processing

#### Cash-out module

- Withdrawals of up to 60 notes in a bundle
- Banknote reject/bundle retract

#### Banknote storage

- 2 - 5 cassettes
- Maximum fill level 310 mm
- Minimum cash sensor
- Security based on lock, lead seal and tamper indicator
- Retract/reject cassette with 2 compartments

### Customer interaction

#### Display

- 15" TFT LCD Display (standard, semi high bright)
- 17" TFT LCD-Display (standard)
- Autoscaling funktion for automatic VGA, SVGA, XGA adjustment
- 8 softkeys and/or touch display

#### Keyboard

- EPP V6 (ZKA & PCI 1.x/2.x certified)
- Alphanumeric/EPP combi keyboard

#### Card processing

- Hybrid motorized - EMV 4.x Level 1 certified
  - Illuminated throat
  - Card retracted if not removed
  - Card returned if power fails
  - Preparatory kit for CIM 06
  - HiCo-write function
  - Integrated contactless reader
- Hybrid DIP - EMV 4.x Level 1 certified
- Contactless card reader (external integration/EMV 2000 certified)

#### Receipt/journal printer

- Thermal printer (dual color for document printing)
- Dot matrix printer

#### Audio

- Loudspeakers, headset jack with adjustable volume

### Security

#### Cash security

- Safes: UL 291 Level 1, CEN L, CEN III ECB-S, CEN IV ECB-S
- Intruder alarm system
- Anti-Cash-Trapping Sensors
- Mechanical and electronic locks

#### Data and software security

- Anti-Manipulation Card Slot
- Anti-Skimming II Module
- EPP shield (ZKA/VISA-compliant)
- Awareness mirrors
- Privacy display filter for the monitor

#### Identify and access control

- Intelligent operator authentication via CryptA Stick

#### Security surveillance

- Cash removal, portrait and ID card unit camera
- Optical Security Guard (OSG)

### Multifunctionality

#### Passbook module

- Passbooks with vertical and horizontal folds
- ZeKoSa reading unit, page-turning function and last line recognition
- Retract and/or deposit compartment for passbooks and single sheets

#### Statement/information printer

- Thermal two-color printer
- Retract function with storage compartment
- Paper type z-fold

#### Barcode reader

- 1D and 2D Barcodes

#### Sidecar

- Coin sidecar

### Service

#### Operator panel

- 10,4" graphical color display
- Customer monitor tiltable for service
- Operator keyboard

#### Operator guidance

- User guidance via graphic animations and color guidance systems

### Operation

#### Environmental conditions

- Temperature range: + 5°C to + 40°C
- Humidity: 5 % to 85 %

#### Technical details

- Supply voltage range: 110 - 120 V; 220 - 240 V
- Mains frequency 50/60 Hz
- Uninterruptable Power Supply
