

ProInfo 1000

Standard terminal for Self-Service-Applications

With ProInfo 1000 Wincor Nixdorf has created a modular kiosk terminal that can optimally be geared.

ProInfo 1000 offers a broad array of communications options and can be integrate a range of multimedia components – from input/output via the touch screen to a sound system and a document printer. This makes it possible to implement any conceivable type of application.

Thanks to small dimensions and an attractive design, ProInfo 1000 is especially suitable for locations with limited space such as retail stores and bank branches.

ProInfo 1000 is available as a freestanding or wall-mounted model.

Highlights:

- Compact design
- Minimum footprint
- Installation versions
 - Freestanding
 - Wall-mounted
- TFT display
- Touch screen
- Magnetic card reader
- Diverse thermal printer

■ Customer behavior today is characterized by a variety of different needs. One answer is a multi-channel strategy, an area in which kiosk systems play a key role. They offer the user a wide variety of information services and, in this way, enhance the provider's delivery strategy.
