Flexibility and openness thanks to standards and modularity

NAMOS retail has established itself internationally at Petroleum/ Convenience Stores. Based entirely on Microsoft platforms and technologies (VB, .NET, SQL SERVER) and using industry standards like PCATS-NAXML, NAMOS retail meets the highest technological requirements.

NAMOS retail features a modular set of components designed to help you better manage your business from a strategic, tactical, and operational perspective. The components include mandatory andoptional components:

Mandatory modules:

- NAMOS Managers Workstation

Optional modules:

- Merchandise Management including Inventory Management
- Handheld Terminal
- Local Account
- Fuel Stock Management
- Cash Handling & Banking
- Quick Service Restaurant

Thanks to its modularity and openness, communication with other third-party solutions is simple. NAMOS retail is tightly integrated into NAMOS compact POS solution. Combined with NAMOS central HOS solution, you can effectively manage and control your complete network. NAMOS retail can also be seamlessly integrated into any existing ERP System.

Reduced Training Time

Automated workflows and an easy to learn and intuitive Graphical User Interface dramatically cut store operators training time and reduce costly errors.

With NAMOS retail, traditionally time intensive tasks, such as end of day reconciliation, can be accomplished within minutes.

NAMOS retail helps retailers to optimise their operations through its wide range of easy to use Back-Office functionalities:
