

CINEO C2080

Multifunctional automated teller machine for indoor installations

Cash Cycle Management™ Solutions – Setting new standards

The CINEO C2080 is part of the unique technology concept and a component of Wincor Nixdorf's revolutionary Cash Cycle Management™ Solutions portfolio. The cash dispenser is based on a completely new technology approach, with an innovative banknote storage concept as its core element. This makes it possible for banks and retailers to interchange one and the same cassette between all systems in the CINEO cash series.

Clear value proposition

The groundbreaking technology platform optimizes cash replenishment and pick-up processes. The new cash media dispenser enables operators to realize closed cash cycles throughout a bank branch or retail store as well as between branches/stores in one organization. And for the very first time, cash cycles can be networked across industries and integrated in cash center processes. As a result of optimized cash handling, the CINEO C2080 enables operators to cut their costs and improve on security. Combined with innovative software and end-to-end cash

management services, the system guarantees audit compliance and maximum transparency of all cash inventories at all times.

Impressive innovation

With its new CINEO C2080 system, Wincor Nixdorf offers yet another best-in-class cash dispenser for use in lobby environments. One of the most important features of the CINEO C2080 is the ability to upgrade the ATM to a cash recycling system. It offers outstanding performance thanks to three multifunctional areas with numerous options such as innovative print, passbook, bulk check and coin processing as well as cash. 17" monitors, softkey and touch operation, an illuminated card slot, attractive design and customer guidance guarantee maximum satisfaction. Optimal component accessibility and a graphical user interface make CINEO C2080 one of the world's most user-friendly cash dispensing systems. The same applies to serviceability: A broad range of operating information is delivered automatically, enabling proactive and efficient system management. Dispenser technology that has proven its worth across the globe,

coupled with the cutting-edge cassette technology, conspire to create a unique, flexible system that can be tailored to customers' specific needs.

Security across the board

Criminal attacks often result in more than just damage to systems – they are also likely to concern customers. CINEO C2080 offers impressive new security features: A tamper-proof card slot, the Anti-Skimming II Module, high-resolution cameras, Optical Security Guard, CryptA stick and EPP V6 with privacy shield, are all features that close potential security gaps, improve system availability and win customer confidence.

TECHNICAL DATA

General

Installation types

- Indoor, frontload or rearload
- Partly integrated, fully integrated, window frame

Chassis

- Multicolor options
- Illuminated advertising lightbox
- Customers guided by optical indicators at all input and output modules

Banknote processing

Cash out module

- Withdrawals of up to 60 notes in a bundle

- Banknote reject/bundle retract

Banknote storage

- 3 – 4 cassettes
- Maximum fill level 300 mm
- Fill level indicator
- Scalable cassette concept: Lock, lead seal, tamper indicator, shutter and cover monitoring, cash management memory
- Retract/reject cassette with 2 compartments

Customer interaction

Display

- 15" TFT LCD display as standard, semi high bright, high bright
- 17" TFT LCD display as standard, semi high bright, high bright
- Autoscaling function for automatic VGA, SVGA, XGA adjustment
- 8 softkeys and/or touch display

Keyboard

- EPP V6 (ZKA & PCI 1.x/2.x certified)
- Alphanumeric/EPP combi keyboard

Card processing

- Hybrid motorized
 - EMV 4.x Level 1 certified
 - Illuminated throat
 - Card retracted if not removed
 - Card returned if power fails
 - Preparatory kit for CIM 06
 - HiCo-write function
 - Integrated contactless reader
- Hybrid DIP – EMV 4.x Level 1 certified
- Contactless card reader (external integration/EMV 2000 certified)

Document/journal printer

- Thermal printer (dual color for document printing)
- Dot matrix printer

Audio

- Loudspeakers, headset jack with adjustable volume

Security

Cash security

- Safes: CEN L, CEN III ECB-S, CEN IV ECB-S
- Intruder alarm system
- Mechanical and electronic locks

Data and software security

- Secure channel
- Anti-Manipulation Card Slot
- Anti-Skimming II Module
- EPP shield (ZKA/VISA-compliant)
- Awareness mirrors
- Privacy display filter for the monitor

Identity and access control

- Intelligent operator authentication via CryptA Stick
- Mechanical and electronic locks
- Anti-Card-Trapping functionality
- Biometric options

Security monitoring

- Cash removal, portrait and ID card unit camera
- Optical Security Guard (OSG)

Multifunctionality

Cash/Check Deposit Module

- Deposit of bundles of up to 50 notes/checks
 - MICR and OCR recognition
 - Metal detection
- #### Passbook module
- Passbooks with vertical and horizontal folds
 - ZeKoSa reading unit, page-turning function and last line recognition
 - Retract and/or deposit compartment for passbooks and single sheets

Statement/information printer

- Thermal two-color printer
- Retract function with storage compartment
- Paper type z-fold

Sideacr

- Coin deposit and dispensing sidecar

Barcode reader

- 1D and 2D Barcodes

Coin module

- Integrated 4 and/or 8 fold coin-out

Service

- Operator panel
- 10,4" graphical color display
- Customer monitor tiltable for service
- Operator keyboard

Operator guidance

- User guidance via graphic animations and color guidance

Operation

Environmental conditions

- Temperature range: +5 °C to +40 °C
- Humidity: 5 % to 85 %

Technical details

- Supply voltage range: 110 – 120 V; 220 – 240 V
- Mains frequency 50/60 Hz
- Uninterruptable Power Supply
