DIEBOLD NIXDORF CS 2060 LOBBY CASH DISPENSER SYSTEM

EASY ACCESS TO CASH

DIEBOLD NIXDORF

Although the frequency of non-cash payments is growing globally, cash retains its status as the world's number one payment method. Nine out of 10 payment transactions are handled in cash worldwide, and the total volume of global cash withdrawals has risen 8% each year. Knowing this, it is hardly surprising that the number of global ATMs is forecasted to grow continually as consumer demand for convenient cash access remains pronounced.

PHILOSOPHY

Our cash-dispensing systems enable you to expand consumer access to cash while providing simple, seamless transaction experiences. The CS 2060 not only makes cash accessible, but it is also designed for fast, easy upgrades to satisfy additional requirements as they emerge. You also have the option to integrate advanced functionality, such as mobile-initiated cash transactions driven by QR codes or NFC technology.

OPTIMIZE CASH MANAGEMENT

The CS 2060 is an indoor cash dispenser ideal for use in branch and lobby environments that offer expanded functionality such as passbook or A4 statement printing and coin processing. It is also a part of our Cash Cycle Management™ Solutions portfolio, providing convenient cash access while optimizing the cash-replenishment cycle. The CMD-V5 cash media dispenser enables operators to realize closed cash cycles throughout branches thanks to the ability to interchange cassettes between all cash-dispensing, cash-recycling and teller automation systems.* Powered by innovative software and end-to-end cash-management services, the system guarantees audit compliance and maximum transparency of all cash inventories at all times.

RELIABLE, INTUITIVE TECHNOLOGY

The CS 2060 features a consumer-pleasing construction with a 17-inch monitor, expanded printing options and coin dispensing. Optimal component accessibility and an intuitive interface make the CS 2060 one of the world's most user-friendly cash dispensers. A broad range of operating information is delivered automatically, enabling proactive and efficient system management, and a robust suite of advanced security solutions keeps assets safe. Combine these factors with dispenser technology that has proven its worth across the globe and cutting-edge cassette technology, and the result is a reliable, flexible system that can be tailored to customers' specific needs.

* Interchangeable with all Diebold Nixdorf systems that feature CMD-V5 and RM3 modules.

FEATURES

APPLICATION
- Lobby front-load or rear-load cash dispenser
- Freestanding, partly integrated, fully integrated, window frame

MEDIA TECHNOLOGY
CMD (Cash Media Dispenser)
- Withdrawals of up to 60 notes in a bundle
- Single or bundle reject/retract
- CCMS ready with E2E cassettes

Banknote storage
- 2–5 cassettes
- Maximum fill level: 300 mm
- Fill-level indicator
- Scalable cassette concept: 300 mm (large), 200 mm (small)
- Retract/reject cassette with 2 compartments

ENHANCED SECURITY
Physical
- Consumer awareness mirrors
- Anti-cash-trapping sensors
- Intelligent operator authentication via CrypTA Stick
- Anti-card-trapping functionality
- Anti-manipulation card slot

Logical
- Encrypting PIN Pad
- Optical Security Guard (OSG)
- Secure channel

DIMENSIONS
- See installation manual

WHY DIEBOLD NIXDORF?

With an installed base of 1 million customer touchpoints in more than 120 countries, Diebold Nixdorf leads the industry in self-service cash systems automation innovations. This positions us to better understand the market needs of today and anticipate those of tomorrow. Leveraging our IP and expertise in cash handling, security and branch automation, we use our knowledge across peripheral markets where self-service efficiencies are emphasized for consumers who desire ease, familiarity and security with their day-to-day transactions—from branch to mobile and beyond.
