RAM, not less than, Gbytes	8	12
Hard drive space, Mbytes:		
For application server		400
For database		500
Software	OS: Windows 2003 Standard / Enterprise, Windows Server 2008 R2, Windows Server 2012 R2 Database: MS SQL Server 2008 and up	

For networks of 200 to 500 devices

Hardware	Minimum	Recommended
Processor: class, number of cores	Intel Xeon E5, Not less than 8	Intel Xeon E5 CPU, 8 cores and more
RAM, not less than, Gbytes	12	16
Hard drive space, Mbytes:		
For application server		400
For database		900
Software	OS: Windows 2003 Standard / Enterprise, Windows Server 2008 R2, Windows Server 2012 R2 Database: MS SQL Server 2008 and up	

For networks of over 500 devices

Hardware	Minimum	Recommended
Processor: class, number of cores	Intel Xeon E7, Not less than 8	Intel Xeon E5 CPU, 12 cores and more
RAM, not less than, Gbytes	16	24
Hard drive space, Mbytes:		
For application server		400
For database		1500
Software	OS: Windows 2003 Standard/ Enterprise, Windows Server 2008 R2, Windows Server 2012 R2 Database: MS SQL Server 2008 and up	

Technical Requirements

March 2016

PC System Requirements for Payments^{iQ} Client (Operator, Technologist, Taxman, Administrator workplace)

Hardware	Minimum	Recommended
Processor Intel i3 / Athlon II and up	Intel i3	Intel i5
RAM, not less than, Gbytes	4	8
Hard drive space, Mbytes:		
For application server		250
For database		400
Software	OS: Windows Vista, 7, 8 Web browser: IE 8.0 and up
